

Princess Margaret Estate

Bequia, Princess Margaret

Details

One of the World's Rarest Beachfront Holdings Princess Margaret Estate occupies a position of extraordinary international significance. Located directly on the crescent of Princess Margaret Beach, widely regarded among the most beautiful natural beaches in the world, this estate represents a category of property that is virtually unobtainable anywhere in the Caribbean—and increasingly rare worldwide. Large, undeveloped beachfront holdings of this calibre, with scale, access, and planning in place, almost never come to market.
