Prime Beach View Lot

Lower Bay, Bequia

Details

A Unique Ridge Position Between Two Iconic Beaches Set on the gently rising ridge between Lower Bay Beach and Princess Margaret Beach, this exceptional parcel of land offers a rare combination of panoramic sea views, immediate beach access, and central island convenience. Elevated above the shoreline, the plot enjoys uninterrupted outlooks across Admiralty Bay and the open Caribbean Sea beyond. Opportunities of this nature—positioned between two of the Caribbean's most celebrated beaches—are increasingly scarce. Prime Location with Exceptional Accessibility The land is just steps from both beaches, with easy road access from above and below.
