Details

Contemporary Hilltop Villa with Panoramic Admiralty Bay & Mustique Views Positioned along the established ridge of Mount Pleasant, Letovah commands one of Bequia's most compelling vantage points — sweeping west across Admiralty Bay, Princess Margaret Beach and Lower Bay, and eastward toward Mustique and the wider Grenadine chain. Properties that capture both harbour proximity and far-reaching Grenadine panoramas are exceptionally rare. Most hillside homes compromise — favouring either the cooler eastern elevations with expansive island views, or positions closer to the harbour at the expense of consistent trade winds and horizon depth. Letovah achieves both.
